## **ABOUT MYSELF**

I'm A K M Samiun Prasurjo — a Computer Science & Engineering student at Canadian University of Bangladesh and the founder of **AKM IT Solutions**. My journey began in my high-school days in Noakhali, driven by a curiosity about how technology can empower people and build scalable solutions.

While many around me chased short-term trends, I focused on learning, experimenting, and long-term planning. I'm not just studying tech — I'm building with it. My goal? Launch and grow tech-based companies that truly make an impact.
